Subject: RE: 1st Quarter Progress Report Occidental (KSD007482029)

Brad,

Thanks for the response. I figured we could talk about the schedule during our meeting next week. The VI field work was delayed by the flooding last fall and now with some of the off-site resampling it has taken longer than expected. I will make sure we contact you about proposed schedule changes in the future.

Thanks, Dave

Subject: [EXTERNAL] 1st Quarter Progress Report Occidental (KSD007482029)

David, I have reviewed the subject report and have no requests for revisions. I do notice some of your projected dates have changed; including the one for submitting the CMS Report which changed from 6-13-17 to 7-13-17 since last quarter's report. EPA requests that before Occidental makes any changes to the schedule in the future, proposed changes be discussed with EPA and extensions be requested for any Occidental deliverables that are not expected to meet the schedule included with this report.
